

HT-80

Full Height Turnstiles

Interior & Exterior Application

Dollar for dollar, Hayward Turnstiles are simply the best turnstile value in the access control industry.

We have engineered our turnstile product line with your needs in mind: Performance, aesthetics, reliability, and ease of maintenance.

In addition to turnstile and crowd control products, we offer design assistance for new installations, as well as custom fabricated devices.

Hayward Turnstiles provides access control systems regionally, nationally, and worldwide.

Contact us for more information about the new generation of turnstiles offered by Hayward Turnstiles.

Full Security with Style

The HT 80S (Single) (shown at right) and HT 80T (Tandem) are full security, tamper-resistant, full height turnstiles. Both are equipped with attractive aluminum Ovaline arms coated with a weather resistant finish making them ideal for indoor and outdoor applications.

Also available as a metal detector where higher security needs exist.

APPLICATION:

The HT 80 is a three vane full height turnstile with a weather resistant finish and is ideal for interior or exterior placement wherever style and durability are needed. It is crafted of 6005-T6 Aluminum Extrusion and features GE's transparent Lexan® polycarbonate cage panels

PRODUCT FEATURES:

- Materials and finishes available in your choice of: Clear, Dark Bronze or Black Anodize
- Performance features include automatic indent Feather –Touch action that includes shock suppressor technology and a non-entrapment design

DESIGN & CONSTRUCTION

- Designed for secure operation with aesthetics in mind
- Features minimal exposed hardware and meets ASTM standards

CONTROLLER & ACCESS CONTROL OPERATION:

- Self centering control head with adjustable hydraulic shock suppression
- Hardened tool steel locking bars, cam & roller assemblies
- Permanently lubricated bearings
- Available in clockwise, counter- clockwise or bidirectional passage

DIMENSIONS:

HT-80S

- Exterior Height: 89.5"
- Width: 65.68"
- Pedestrian Clearance: 30"

HT-80T

- Exterior Height: 89.5"
- Width: 96.18"
- Pedestrian Clearance: 30"

OPTIONS:

- Electronic locking module featuring heavy duty 24 VDC solenoids and card reader interface
- Available as Fail-Safe (free passage on power failure) or Fail-Lock (locked passage on power failure)
- Can interface with card readers, computer attendance systems, coin or token acceptors, push buttons, wireless remote controls and metal detectors
- Vertical Graphic Array - Red X / Green Arrow
- Electronic 6 digit resettable counter with LCD display
- Additional options available on request

ELECTRICAL SPECIFICATIONS:

- Command Module input 110 VAC (2amp-1amp) 50-60 Hz stepped down to a safe 24 VDC output
