

❖ SOFTWARE

Plustek SecureScan

Utility management application to simplify travel documents (ID card and passport) scanning. SecureScan enables you to specify your personalized scanning configuration setting and detect ID document which are compliant to ICAO Doc 9303. Collects the personal data and photograph and automatically cuts the scans to size.

Plustek SecureScan Manager

The database management software is customized for SecureScan scan results. SecureScan Manager provides password login mechanism to secure data safety. It enables administrators to specify personalized files management, such as resolution, image output file format and save path. Data can be quickly retrieve via keyword search in seconds.

Hardware Requirements

2.0 GHz CPU processor or higher^[1]
 [1]Windows Recommended: 2.8 GHz Intel® Core™ i5 Processor with 4 CPU Cores or higher
 4 GB RAM minimum (Recommended: 8 GB or more)
 6 GB of hard-disk space for program installation
 USB2.0 or above
 Display dimensions of 1024x768 or greater

Hardware Specification

Image Sensor	CMOS
Light Source	White LED
Optical Resolution	5 Megapixels
Focus	Fixed
Scan Modes	Color: 24-bit Input; 24-bit Output
Scanning Speed	Approx. 1 sec (Color Mode, Full Page passport image capture)
Scanning Area (W x L)	Maximum: 127 x 95 mm (5" x 3.74")
Acceptable Paper Sizes (W x L)	Maximum: 125 x 88 mm (4.92" x 3.46")
Action Button	Dual Auto Detect Sensors
Power Supply	USB Power: 5V / 0.5A
Interface	USB 2.0
Net Weight	1.7 Kgs (3.78 Lbs)
Dimensions (W x D x H)	Without Cover: 200 x 200 x 119 mm (7.87" x 7.87" x 4.69") With Cover: 200 x 200 x 190 mm (7.87" x 7.87" x 7.48")
OS	Windows 7 / 8 / 10 / 11 Linux(SDK only) ^[1]

[1]Linux compatibility is only available for system integrators.

The Automated Solution for Reliable and Efficient Data Capture

The **Plustek SecureScan X50** is a powerful identification reader that provides seamless machine readable zone (MRZ) capturing. The full-page scanner produces high-resolution, crisp and distortion free images from identification cards and passports that are compliant with ICAO 9303 standards. The complimentary application has built-in data recognition, made to recognize MRZ data and extracts the vital information into the **SecureScan** database. The **SecureScan X50** saves time and prevents typo or keystroke errors which can easily occur when data is typed in manually. From hotel check-in, bank account application to car rental – the **SecureScan X50** simplifies and accelerates reading, capturing and processing of identity documents.

❖ KEY FEATURES

- **Built-in data recognition-** reads and extract data from the machine-readable zone (MRZ)
- **Intelligent discovery-** start capturing data upon document detection
- **5-megapixel high-precision optical engine** for high speed scanning
- **Integrate-** easily into kiosks counters
- **BUS Powered-** connect and operated via USB connection
